Client: Don & Sons
Date of Visit: [Enter Date]
Prepared By: Mich

Purpose of Visit

Conducted a demonstration of the HRM System and gathered client feedback regarding payroll and employee management functionalities.

Discussion Summary

The HRM system was successfully demonstrated to the client. During the discussion, several improvements and corrections were identified.

Client Requirements and Issues Identified

1. Payroll Approval Process

- Add a payroll approval workflow for the Finance Department before final payroll processing.

2. Comment Box for Payroll Approval

- Add a comment box for Finance users to provide remarks during payroll approval or rejection.

3. Deduction Handling

- Deduction calculations should be properly handled within the Allowance and Deduction section.

4. Paysheet Improvements

- Current paysheet does not display employee deductions.
- Create a dedicated deduction section in the paysheet to clearly show all deductions.

5. UI and Report Improvements

- Remove unnecessary information from payroll reports and paysheets.
- Simplify the layout to improve readability.
