PROJECT EXPERIENCE

FITZONE FITNESS WEB APPLICATION
web application, developed using HTML, CSS, PHP, and JavaScript, combines a responsive design, interactive features, and secure backend processing to deliver a reliable and user-friendly solution.

"The Paws Shop" MANAGEMENT SYSTEM
"The Paws Shop" system, built in Java, automates transactions with two user roles Cashier and Manager ensuring fast and efficient pet supply management.

GADGET HUB.API APPLICATION
"The Gadget Hub" system uses C#, HTML, CSS, and .NET to connect with distributors through APIs. It automates price comparison and order placement, making the process fast and efficient.

PET POINT MULTITASKING SYSTEM APPLICATION
PPMS is a web-based platform built with HTML, CSS, JavaScript, and PHP to support pet care, adoption, and welfare. It streamlines services like adoptions, vet bookings, e-commerce, and AI assistance for pets and owners.
